- v) an underground structure may be sited in any portion of a lot provided that the top surface of such structure shall at no point extend 0.6 metres above the average finished grade level, excluding above ground swimming pools.

USES PERMITTED AND PROHIBITED IN ALL ZONES

BL#1871

5.8.1 A use not specifically permitted in a Zone is prohibited from that Zone. A use not specifically permitted in this Bylaw is prohibited from the Town. **BL#1871**

5.8.2 [Repealed]

BL#1877

5.8.3 The following uses shall be permitted in all zones:

BL#1871

- parks, playgrounds, public recreation facilities and open space conservation areas;
- public service uses.

MINIMUM PARCEL AREA

5.9 No plan of subdivision shall be approved where any parcel proposed to be created by the plan of subdivision would have an area less than the minimum parcel area provisions as set out in this bylaw.

EXCEPTION FROM MINIMUM PARCEL AREA

5.10 Minimum parcel size provisions of this bylaw do not apply in the case where:

- a) The parcel being created is to be used for an unattended building or equipment necessary for the operation of:
 - a community water system
 - a community sewer system
 - a community gas distribution system
 - a radio or television or broadcasting antenna
 - a telecommunication relay station
 - an automatic telephone exchange
 - an air or marine navigational aid
 - an electrical substation or power generating station
 - any other similar public service
 - a park or playground.
- b) Two or more existing parcels are to be consolidated.

VISION CLEARANCE AT INTERSECTIONS

5.11 Except in a C-1 zone, no fence, wall, or structure other than a permitted principal building or accessory building shall be erected to a greater height than 1.1 metres so as to obstruct vision clearance in the area bounded by:

- i) The intersecting lot lines at a street corner and a line joining points along said lot lines 4 metres from their point of intersection.
- ii) The intersecting lot lines at a lane corner and a line joining points along said lot lines 3 metres from their point of intersection. A lane intersection shall include the intersection of a lane with any other lane or with a street.

OFF STREET PARKING AND LOADING

5.12 All zones shall be subject to Part Nine of this bylaw - **OFF STREET PARKING AND LOADING.**

SCREENING AND LANDSCAPING

5.13 All zones shall be subject to Part Nine of this bylaw - **SCREENING AND LANDSCAPING.**

FLOODPLAIN PROVISIONS

5.14 For the purposes of this section of the bylaw, the following definitions shall apply:

“alluvial fan” means the alluvial deposit of a stream where it issues from a steep mountain valley or gorge upon a plain or at the junction of tributary stream with the main stream.

“designated flood” means a flood, which may occur in any given year, of such magnitude as to equal a flood having a 200-year recurrence interval, based on a frequency analysis of unregulated historic flood records or by regional analysis where there is inadequate streamflow data available.

“designated official” is a Regional Water Manager of the Ministry of Environment and Parks.

“floodplain construction level” means a Designated Flood Level plus an allowance for Freeboard, or where a Designated Flood Level cannot be determined, a height assessed above a natural boundary or natural ground elevation as approved by Designated Officials.

“floodplain setback” means a withdrawal of a building or landfill from the natural boundary, or other reference line (as approved by the Designated Official) to maintain a floodway and to allow for potential land erosion.

“freeboard” means a vertical distance added to a Designated Flood Level, used to establish a Flood Construction Level.

“habitable area” means any space of room within a building or structure, including a mobile home or unit, modular home or structure which is or can be used for human occupancy, industrial, business, or commercial use, or storage of goods, including equipment (including furnaces) which could be subject to damage by floodwater.

“mobile home or unit” means a structure, excluding recreation vehicles, designed and manufactured as a habitable area.

“natural boundary” means the visible high watermark of any lake, river, stream or other body of water where the presence and action of the water are so common and usual and so long continued in all ordinary years as to mark upon the soil of the bed of the lake, river, stream or other body of water a character distinct from that of the banks thereof, in respect to vegetation, as well as in respect to the nature of the soil itself, as defined in Section 1 of the Land Act, and includes the edge of dormant or old side channels of any lake, river, stream, or other body of water, and marsh areas, and includes the natural limit of permanent terrestrial vegetation.

“natural ground elevation” means the undisturbed ground elevation prior to site preparation.

“pad” means a paved surface on which blocks, posts, runners or strip footings are placed for the purpose of supporting a mobile home or unit, or a concrete pad for supporting habitable area.

“standard dykes” means those dykes built to a minimum crest elevation equal to the Flood Elevation Requirements which meet standards of design and construction approved by the Ministry of Environment and Parks, and are maintained by an ongoing authority such as a local government body.

“top of bank” means the point at which the upward ground level becomes less than one (1.0) vertical to four (4.0) horizontal, and refers to the crest of the bank or bluff where the slope clearly changes into the natural upland bench; or as designated by the Minister of Environment and Parks, or his Designated Official.

“watercourse” means any natural or man made depression with well defined banks and a bed 0.6 metres or more below the surrounding land serving to give direction to a current of water at least six (6) months of the year or having a drainage area of 2 square kilometres or more upstream of the point of consideration, or as designated by the Minister of Environment and Parks, or a Designated Official.

“W.S.C.” means Water Survey of Canada datum.

Floodplain Designation

- 5.14.1 The following land within The Town of Creston is designated as floodplain:
- b) Those lands and Flood Construction levels designated within The Town of Creston Official Community Plan Bylaw No. 1089, 1988; and
 - c) Those portions of land within the Floodplain Setback areas specified in Section 5.14.2 and those portions of land lower than the Flood Construction Levels specified in Section 5.14.3.

Floodplain Setbacks

- 5.14.2 Notwithstanding any other provisions of this bylaw, or any other bylaw of the Town of Creston, the following are specified as the Floodplain Setbacks (for any landfill or structural support required to elevate a wooden floor system or pad above the Flood Construction Level) from the following watercourses or bodies of water in order that no habitable area, or any part thereof, shall be constructed, reconstructed, moved, extended or located:
- i) within 7.5 metres of the natural boundary of a swamp or pond; and
 - ii) within fifteen (15) metres of the natural boundary of any other watercourse.

Floodplain Construction Levels

- 5.14.3 a) Except as provided in subsection 5.14.3 (b) the following are specified as the Flood Construction Levels for the floodplain designated under Section 5.14.1 in order that no habitable area, or any part thereof, shall be constructed, moved, extended or located with the underside of the wooden floor system or the top of the pad of any habitable area, or in the case of a mobile home or unit with the ground level or top of the pad on which it is located:
- i) lower than the Flood Construction Level for the Kootenay River as determined by the interpolation from those Flood Construction Levels shown on the Ministry of Environment and Parks Floodplain Mapping Drawing No. A5-278, Sheets 1 to 6 dated August, 1981.
- Or where such mapping is not available:
- ii) lower than 1.5 metres above the natural boundary of swamp or pond;
 - iii) lower than 1.5 metres above the natural boundary of any other watercourse.
- b) Exceptions to the Flood Construction Level are:
- i) Farm dwelling units on parcel sizes 8.0 hectares, or greater, located within the Agricultural Land Reserve shall be located with the undersides of a wooden floor system or the top of the pad of any habitable area, or in the case of mobile home or unit, with the ground level or top of the pad on which it is located no lower than 1 metre above the natural ground elevation, or no lower than the Flood Construction Level, whichever is the lesser.
 - ii) Closed-sided livestock housing not behind Standard Dykes shall be located with the underside of a wooden floor system or the top of the pad of any habitable area, or in the case of a mobile home or unit, with the ground level or top of the pad on which it is located no lower than 1 metre above the natural ground elevation, or no lower than the Flood Construction Level, whichever is the lesser.

Erosion Protection

- 5.14.4 a) The Flood Construction Levels specified in subsection 5.14.3 may be achieved by structural elevation of the habitable area or by adequately compacted landfill on which any building is to be constructed or mobile home or unit located, or by a combination of both structural elevation and landfill. Where landfill is used to achieve the Flood Construction Level specified in subsection 5.14.3, the face of the landfill slope shall be adequately protected against erosion from flood flows, wave action, ice or other debris.
- b) Foundations of construction in alluvial fan areas shall be designed by a Professional Engineer to ensure: that structures are anchored to minimize the impact of flood, sediment and erosion damage; that footings extend below scour depth; and that fill is to be armoured where elevation is achieved by fill, to protect against scour, erosion and flood flows.

Exemptions

- 5.14.5 The Flood Construction Levels specified in Subsection 5.14.3, shall not apply to:
- a) A renovation of an existing building or structure that does not involve an additional thereto;
- b) An addition to a building or structure that would increase the size of the building or structure by less than 25 percent of the floor area existing at the date of adoption of Bylaw No. 910;
- c) That portion of a building or structure to be used as a carport or garage;
- d) Farm buildings other than dwelling units and closed-sided livestock housing; and
- e) Close-sided livestock housing behind standard dykes.

BL#1665

- 5.15.1 It shall be contrary to this bylaw for any individual to sell or offer for sale under authority granted by this bylaw, property other than personal property.
- 5.15.2 A maximum of four (4) yard sales are permitted per calendar year per residential lot, with each sale not to exceed eight (8) hours in duration.
- 5.15.3 Yard Sale activity is only permitted between the hours of 7 a.m. and 9 p.m.
- 5.15.4 Four (4) signs advertising the sale shall be permitted and the area of such signs shall not exceed 1 m². Advertising signage must be removed immediately after the sale is concluded.

SHIPPING CONTAINERS

BL#1808

- 5.16.1 Shipping containers used for temporary or permanent storage is an accessory building, which shall meet the following requirements:
- a) adhere to the *BC Building Code* and to the Town of Creston Building Bylaw requirements, and all enactments applicable to electrical and fire safety;
- b) not to be used for animals, refuse or contaminated or hazardous material;

- c) not to be used as fencing or screening, for advertising or as a commercial storage facility;
- d) not to be stacked;
- e) not to occupy required parking and loading spaces or interfere with the circulation of vehicle or pedestrians;
- f) placement of shipping containers is subject to all zoning regulations including setbacks and site coverage; in development permit areas, development permit guidelines apply;
- g) within the Highway Service Commercial (HSC) and Highway Service Commercial-Hotel (HSC-H); Community Use (P-1); Light Industrial (M-1); and, Heavy Industrial (M-2) zone; a maximum of two (2) units per site are permitted where used for accessory storage;
- h) shipping containers used as a temporary building placed on a lot for the storage of building materials stored temporarily for the use in construction of or improvements, with a valid Building Permit or Development Permit, on the said lot, are exempt.

TEMPORARY USE PERMITS

BL#1808

- 5.17.1 In accordance with Section 921 of the *Local Government Act*, Commercial Zones and Industrial Zones are designated areas for consideration of a Temporary Use Permit for uses not presently permitted on the property subject to an application.
- 5.17.2 Temporary Use Permits are not a substitute for a land use designation amendment in accordance with the bylaw. The temporary commercial or industrial use, building or structure may continue in accordance with the provisions of the permit until the permit expires, or up to three years after the permit was issued, whichever occurs first. Permits may be renewed only once, after which the land owner must apply to have the use permanently designated in the Official Community Plan and / or Zoning Bylaw, or cease.
- 5.17.3 Any buildings or structures related to the uses are required to comply with the zoning regulations for that zone and the BC Building Code regulations.
- 5.17.4 Permits will adhere to the following general conditions:
 - a) must be clearly temporary or seasonal in nature;
 - b) should not create an unacceptable impact on the environment or on surrounding land and uses;
 - c) should carry out appropriate remedial measures to mitigate any damage to the natural environment as a result of the temporary use; and,
 - d) must be reviewed and approved by the Province with respect to access and effect on public roads.

CANNABIS PROVISIONS

BL#1877

- 5.18.1 No primary public entry to a Cannabis Retail Store or Cannabis Operation use shall be located within 150 metres of a parcel boundary of a public school, including but not limited to the following (see Schedule B):

PART EIGHT

OFF-STREET PARKING AND LOADING REQUIREMENTS

Space for off-street parking and loading in respect of a class of a building or use under this bylaw shall be provided and maintained in accordance with the regulations of this Part.

SECTION ONE - GENERAL PROVISIONS

- 1.0 In respect of a use permitted under this bylaw but that is not specifically referred to in the specifications section of this part, the number of off-street parking and loading spaces shall be calculated on the basis of the specifications for a similar class of building or use that is listed.
- 1.1 Where the calculation of the required off-street parking or loading space results in a fraction, one parking space shall be provided in respect of the fraction.
- 1.2 Where more than one use is located on a parcel, the total number of parking or loading spaces to be required shall be the sum total of the requirements for each use.
- 1.2(a) The provisions of Part 8, Section 1.2 shall not apply to the combination of a Hostel and an entertainment or café use. In this case, the calculation of the minimum number of off-street parking and loading stalls shall be concurrent rather than the sum total of the requirements for each individual use. **BL#1653**
- 1.3 All off-street parking and loading facilities shall be adequately provided with lighting. In all instances, however, the lighting or illumination shall be located so as to minimize the amount of light falling onto abutting properties.
- 1.4 Each off-street parking and loading space shall have access to a public street or lane.
- 1.5 Where seating accommodation is the basis for a unit of measurement under this section and consists of benches, pews, booths or similar seating accommodation each 0.5 metres width of such seating shall be deemed to be one seat.
- 1.6 Off-street parking spaces shall not be credited as off-street loading spaces.
- 1.7 All parking areas comprised of three (3) or more parking spaces, and every access road to the required parking area, shall be hard surfaced and drained such that all water is contained on-site or is directed to a municipal drainage system or to a natural drainage course.
- 1.8 No off-street parking space shall be located within 2 metres of the front lot line.
- 1.9 Off-street loading spaces shall not be credited as off-street parking spaces.
- 1.10 All loading areas shall be hard surfaced and drained such that all water is contained onsite or is directed to a municipal drainage system or to a natural drainage course.
- 1.11 Each off-street loading and unloading space shall be a minimum of 27.8 m² in area, and in no case shall not be less than 2.5 m in width, 3.6 m in height and 9 m in length.

SECTION TWO - LOCATION

- 2.0 All off-street parking spaces shall be located on the same parcel as the use they service.

2.1 .1 A Notwithstanding Section 2.0 , an owner or occupier of land located within 500 meters of the Cook Street Parking Lot and who has obtained a Development Variance Permit may, in lieu of providing off-street parking spaces, pay to the municipality the sum of \$3,600. per space not provided. Owners and occupiers of buildings within the area designated in the Downtown Revitalization Specified Area (Parking) Loan Authorization Bylaw are exempt from the payment specified in this section.

BL#1214 & BL#1589

.2 Notwithstanding Subsection 2.0, in the C-1 Zone, the C-2 Zone, and the P-1 Zone, off-street parking spaces may be provided on land other than which it is required subject to the following conditions: **BL#1214**

- a) that the parking spaces be located within 100 meters of the subject site;
- b) that the owner of the land whereon the subject off-street parking spaces are to be situated agrees to the registration of a covenant against the land reserving the land (or portion thereof) for off-street parking in favour of the owner or occupier of the subject site, so long as the use to which the off-street parking pertains is continued.

BL#1214

2.2 Required parking spaces for separate uses may be provided collectively if the total number of spaces provided is not less than the sum of the separate requirements for each use and provided that all regulations contained in this part with respect to location are adhered to.
